SUPPLEMENT to the SOUTH-CAROLINA GAZETTE.

Monday MARCH 2, 1767. [Numb. 1646.]

Advertiſements.

For the ENTERTAINMENT of the CURIOUS,

Will be exhibited at the Library-Room, in Union-Street, a courſe of EXPERIMENTS, in that inſtructive and entertaining branch of Natural Philoſophy, called

ELECTRICITY,

To be accompanied with lectures on the nature and properties of the

ELECTRICK FIRE,

By WILLIAM JOHNSON.

THE courſe conſiſts of two lectures, in the firſt of which all the properties of that wonderful element, as far as the lateſt diſcoveries have made us acquainted therewith, and the principal laws by which it acts are demonſtrated in a number of curious experiments, many of which are entirely new. Among many other particulars will be ſhewn that the electric fire, commonly produced by the friction of glaſs, and other electrick ſubſtances, is not created by that friction, but is a real element or fluid body diffuſed through all places in and near this earth; that our bodies contain enough of it, at all times, to ſet a houſe on fire. Alſo many errors, that have crept into this branch of natural philoſophy, will be expunged, and the true theory thereof eſtabliſhed, on the ſolid foundation of reaſon and experiment.

In the ſecond lecture this fire will be ſhewn to be real lightning, from its conſtantly and invariably producing the ſame effects as lightning does; in proving and explaining which, moſt of the effects of lightning will be imitated by the electrick fire, ſuch as killing animals, melting metals, tearing and rending bodies through which it paſſes; together with many curious experiments, naturally repreſenting the various *phænomena* of thunder ſtorms, accounting for their cauſes, and explaining their effects. A practical method of preſerving ourſelves, our houſes, and effects, from the deſtructive violence of lightning, will likewiſe be ſhewn; the efficacy of which will be demonſtrated by ſuch indubitable proofs, from experience, as have not hitherto been exhibited to the world.

Thoſe who deſire to have their habitations effectually guarded from the fatal violence of one of the moſt awful powers of nature, (with which this colony in particular has been often dreadfully viſited) may learn, from theſe lectures and experiments, more of the nature and properties of lightning than has been known to mankind until within theſe few years. They will, at the ſame time, have an opportunity of being fully convinced that the method propoſed for their ſecurity, if put in practice, with proper precaution, will be attended with ſucceſs; and conſequently, that, inſtead of having any juſt objection thereto, from a perſuaſion of its being preſumptuous, we have the utmoſt reaſon to bleſs GOD for a diſcovery ſo important and eminently uſeful. *A prudent man foreſeeth the evil, and hideth himſelf; but the ſimple paſs on and are puniſhed.* Prov. 22. 3.

As the knowledge of nature tends to enlarge the human mind, and give us more exalted ideas of the GOD of NATURE, it is preſumed that this courſe will prove to many an agreeable and rational entertainment.

The firſt courſe will be on Tueſday and Wedneſday next, and will be repeated on Thurſday and Friday following; likewiſe on the correſponding days in the three following weeks, provided the requiſite dryneſs of the air will permit.

Tickets to be had at Dillon's and Backhouſe's taverns, and at *Peter Timothy's*, at 40 s. for both lectures.

N. B. No perſon will be admitted without a ticket by paying at the door, as the inconveniency is great, and muſt be obvious to every one.

Said JOHNSON,

Likewiſe propoſes to exhibit a courſe of experiments (to be accompanied with an explanatory lecture) in that eminently uſeful branch of natural Philoſophy, called

MAGNETISM.

IN this courſe all the principal properties of the magnet or loadſtone will be demonſtrated in a number of curious experiments, and a rational theory of magneſm founded thereon, by which the polar direction and dip of the magnetical needle may be naturally and rationally accounted for.

The uſe and application of this moſt ſurprizing natural power to the important purpoſes of navigation will be ſhewn; the defects of the common ſea-compaſſes will be particularly conſidered and demonſtrated; and the lateſt improvements which the celebrated Dr. Knight has made in that uſeful inſtrument, by which it has attained its utmoſt degree of perfection, will be explained; the knowledge of which is of the utmoſt importance to all perſons concerned in trade and navigation.

The courſe will conſiſt of upwards of twenty experiments, amongſt which are thoſe performed by Dr. Knight before the Royal Society, with many others equally ſurprizing and inſtructive; to be performed with ſeveral natural magnets, together with large magnetical ſteel bars of a ſurprizing degree of ſtrength, which will give a touch four time ſtronger than the beſt loadſtones yet known.

The lecture to begin as ſoon as thirty perſons have ſubſcribed. Subſcriptions are taken in by the operator, at the Library room, in Union-Street, where tickets will be given out at the time of ſubſcription, at a dollar each.

(.S.)

By the honourable EGERTON LEIGH, *Eſq; ſole Judge of his Majeſty's high Court of Vice Admiralty.*

EGERTON LEIGH, J. V. A

WHEREAS a certain libel was on the 10th day of December laſt exhibited and filed in this court by Samuel Pleaſants, and Samuel Rhodes, of the city of Philadelphia, for recovery of certain ſums of money borrowed by one William Earl of Rhode Iſland, on the bottom of certain ſloop called the Induſtry, her tackle, furniture and apparel, which ſaid William Earl is ſole owner of the ſaid ſloop.

AND WHEREAS in ſupport of the actors demand an exemplification of the original bill of bottomry, from ſome public office in Philadelphia was produced, but unaccompanied with any evidence of a ſubſiſting debt, notwithſtanding the ſaid libellers did, by their libel, aver, that the debt ſued for is unſatisfied, and that no part thereof is paid, and it appearing to me that the proofs in this cauſe were inſufficient in law for me to decree a condemnation and ſale of the ſaid veſſel; I did therefore, on mature deliberation, interlocutorily order and adjudge, that the ſaid veſſel ſhould remain in the charge and cuſtody of the marſhal of this court, and that the libellers ſhall tranſmit the original bill of bottomry, or give due proof that the debt demanded is ſtill ſubſiſting and unſatisfied; and alſo, that the ſaid William Earl, the owner, ſhall have notice to come in and conteſt the Merits of the actors libel.

THESE ARE THEREFORE to cite and admoniſh the ſaid William Earl, the owner of the ſaid ſloop Induſtry, to be, and appear before me, at the uſual place of judicature, in Charles-Town, within three calendar months from the date hereof, to ſhew cauſe, (if any they have) why the ſaid veſſel ſhould not be condemned agreeable to the prayer of the actors libel.

GIVEN under my hand and the ſeal of the high court of Vice Admiralty aforeſaid, at Charles Town, this fifth day of January, in the year of our Lord one thouſand, ſeven hundred and ſixty ſeven, and in the ſeventh year of his Majeſty's reign.

THE ſubſcriber's late advertiſement having had but little effect, in collecting his juſt dues, he is therefore obliged (tho' neceſſity, and the fear of ſhutting up his houſe for want of his monies to preſerve his credit) to put all his outſtanding debts into the hands of CHARLES PINCKNEY, Eſq; attorney at law, to be immediately collected and recovered, of which all perſons concerned are humbly deſired to take notice, and excuſe his conduct in this reſpect, for the preſſing reaſons abovementioned.
